About the Cornerstone Adult Behavioral Learning Center

The Cornerstone Adult Behavioral Learning Center is a five-day-per-week recovery and rehabilitation-oriented program. It is designed to assist adults who suffer from life-altering consequences of mental illness.

At Cornerstone, participants enroll in classes and activities that specifically address three aspects of recovery:

1. Managing unwanted symptoms and behaviors
2. Reconnecting with or discovering the things that add pleasure, meaning, and value to life
3. Developing the connections, supports and skills to establish meaningful roles in society
